$15 million for UC research is available NOW through UC Discovery Grants

How much funding can I request?
 - Typical UC contributions can range from $50K to over $2 million/year.
 - Projects can be renewed for up to four years.
 - Industry matching contributions are required in all cases.

When is the application deadline?
  IT for Life Sciences- April 30
  Biotechnology- May 7
  Electronics Manufacturing & New Materials- May 14
  Communications & Networking- May 21
  Digital Media- May 28

Interdisciplinary proposals that span two or more UC Discovery Grant fields are encouraged!

Who's Eligible?
 - UC researchers with PI status
 - Companies with California R&D operations related to the proposed research
Proposals are submitted by UC researchers who have established a qualifying industry partnership.

How do I get started?
 - Visit our website: www.ucdiscoverygrant.org
 - Read our latest annual report: http://www.ucdiscoverygrant.org/about/reports.htm
 - Check sponsor eligibility: http://www.ucdiscoverygrant.org/sponsors/eligibility.htm
 - UC PI's: Register for our system and start a proposal:

The UC Discovery Grant is an industry-university matching grant that jointly supports new research opportunities throughout the nine campuses and three National Laboratories of the UC System in partnership with California R&D firms. Since its inception, the UC Discovery Grants have contributed more than $200 million to UC scientists' research programs, with approximately 70% of proposals submitted to the UC Discovery Grant being approved for funding.
